

LOCKERS 2020

Lockers are provided for your use during the school year. There is only a limited number of Lockers. We are offering these firstly to students who are participating in the Bring Your Own Device Program. The school will be monitoring the usage of these lockers and may in the future purchase more for students to access. Not all students will have usage of a locker. Your student will go on a waiting list for when a locker becomes available.

A lock will need to be provided by you. If your student loses their key or forgets their combination the only option we have for access to the locker is to cut the lock. You would then be required to replace it with a new one.

You are responsible for your locker at all times. You must only use the locker you have been allocated. If we find a locker is being used by someone other than the allocated student the lock will be removed from the locker. All lockers must be emptied at the end of each year.

There will be no access to lockers during school vacations. Any property left in lockers at the end of the contract will be placed in lost property.

This paperwork is to be completed before your student is allocated a locker when one is available. The school is continuing to offer the use of the locker free of charge due to the extra costs parents/carers have to purchase a computer for their student.
